The Ultimate Communication Solution

virtualtone.net

Your antiquated phone system will hold you captive no longer. ***VirtualTone***®, a leading provider of Voice over Internet Protocol (VoIP) communication solutions, allows you to break free from your antiquated PBX technology. Anywhere you have broadband internet access you can utilize VirtualTone technology, at a significant cost savings over your current system. VirtualTone service is hosted on a private, dedicated switch, not on a server shared with thousands of other customers like other systems. Most Session Initiation Protocol (SIP) compatible phones work with our system; however, VirtualTone sells and supports affordable Polycom phones that arrive pre-configured to ensure plug and play convenience.

With VirtualTone you receive:

- 2 to 200 or more users
- Voice Mail
- Call Forward
- Call Waiting
- Call Hold
- Call Conference
- Call Recording
- Call Center Functions
- Call Transfer
- Hold Music
- Follow Me
- Do Not Disturb
- Call Park
- Caller ID
- Redial
- Speed Dial
- Easy Web-Based Admin
- And much more!

Introducing VirtualTone – your new portable Internet phone system...

Polycom hardware available

Your VirtualTone phone service is completely portable, it can be used anywhere broadband internet access is available. With VirtualTone, you can keep your existing phone number, and most Session Initiation Protocol (SIP) compatible devices work with our system; however, VirtualTone sells and supports affordable Polycom phones that arrive pre-configured to ensure plug and play convenience.

With VirtualTone, you can connect remote offices and teams into one global communication system, leveraging your workforce for improved productivity. Plus, your VirtualTone system is scalable; add new extensions, users and phones at any time. VirtualTone does not charge user-based fees like other providers and there are no long distance charges among VirtualTone users ever, regardless of their location. Once your system is in place, our web-based admin page is completely user-friendly, and comes with free, live, remote training and support.

Regardless of the size of your workforce, all VirtualTone phones come with the following standard features:

- Voice Mail via Email
- Call Forwarding
- Call Waiting
- Call Holding
- Call Conferencing
- Call Recording
- Call Center & Ring Queues
- Call Transfer
- Auto Attendant
- Hold Music
- Follow Me
- Do Not Disturb
- Call Park
- Caller ID
- Redial
- Speed Dial
- Easy web-based admin
- And much more!
